

WRITING PROMPT: LANGUAGE

No matter the scenario, why would it not be acceptable to use words like "retard/retarded", "cripple", and "handicapped" ? How do you think using such words is disrespectful to people with disabilities? If you or someone you know uses these kinds of words, what can you do in order to help them/yourself move away from using this type of vocabulary? What are some other words that you would feel comfortable using instead? Write your thoughts in 1-2 paragraphs.
